

Test Cases – EduGenie

Test Case ID	Feature	Test Input	Expected Result
TC01	Question and Answer	“What is Python?”	The system should provide a relevant answer about Python.
TC02	Question and Answer	“What is an algorithm?”	The system should provide a clear explanation of an algorithm.
TC03	Simplified Explanation	“Explain photosynthesis simply.”	The system should provide an easy-to-understand explanation.
TC04	Simplified Explanation	“Explain the water cycle simply.”	The system should simplify the concept for the learner.
TC05	Quiz Generation	Topic: “Python Basics”	The system should generate quiz questions related to Python basics.
TC06	Quiz Generation	Topic: “Computer Networks”	The system should generate relevant quiz questions.
TC07	Text Summarization	A paragraph about artificial intelligence	The system should provide a concise summary.
TC08	Text Summarization	A paragraph about computer science	The system should summarize the important points.
TC09	Learning Path	Topic: “Python Programming”	The system should provide suitable learning recommendations.
TC10	Learning Path	Topic: “Web Development”	The system should suggest a suitable learning sequence.

Test Case Execution

The test cases are designed to verify the major functional features of EduGenie using different types of inputs.

Expected Testing Outcome

Each feature should process the given input and produce an appropriate response without unexpected application errors.
